

T.R.I.P

HOW TO START SAVING ON TUITION

T.R.I.P, or Tuition Reimbursement Incentive Program, helps families off set the cost of tuition by purchasing gift cards to pay for regular household expenses such as gas, groceries and clothing.

Purchase gift cards online via your smart devices for many national retailers and earn a percentage back towards your tuition. Gift cards can even be purchased while standing in the checkout lane and used immediately!

Using T.R.I.P on a weekly basis can earn the average family \$11 a week, which can grow to approximately \$500 over one school year.

Tuition credits are applied once a year, in June, and are applied to the following school year tuition. If you pay your tuition in full you can receive a credit and use the balance towards August tuition or donate the money back to IJPs scholarship fund.

Stack your credit by using Rakuten (formerly ebates) and increase your savings when you shop online!

Consider purchasing Christmas and teacher gifts through the T.R.I.P program to increase savings!
